92

Content Removal Requests

Government requests for removal of content from Google services.

757

Items requested to be removed

A single government request may cover one or multiple items.

63%

Removal requests fully or partially complied with

Observations on Content Removal Requests

- We received a request from a local law enforcement agency to remove YouTube videos of police brutality, which we did not remove. Separately, we received requests from a different local law enforcement agency for removal of videos allegedly defaming law enforcement officials. We did not comply with those requests, which we have categorized in this Report as defamation requests.
