**Note:**

Dove non ero sicuro di leggere bene il cognome, ho messo dei punti interrogativi: scusatemi, e riconoscetevi da soli.

E1) Ho dimezzato il punteggio per chi ha copiato gli esempi dei lucidi (chi innova, galleggia; chi copia, sprofonda).

E5) Non l'ho considerato, e ho riscalato il totale dei punti da 28 a 32.

E8) Avendo inserito dei dati sbagliati, ho contato solo il disegno e la prima domanda.
